

Client: Mindwalk Business Coaching
Project Name: Free Webinar for Web Designers
Project Type: Web Page rewrite

Include 5 Keys in Your Proposals and Add 20% to Your Bottom Line

FREE WEBINAR for Web Designers

You know that keeping your pipeline full of leads is as important as the quality of your web design work.

According to a 2014 study by Web Design Weekly Magazine, 90% of the new web design projects you pursue will require a formal project proposal, even if you've already worked with a client.

That's why it's so important to create winning proposals that are as persuasive and comprehensive as possible. Just by including five key elements in your proposals, you can easily and immediately increase your chances of winning bids by 20% or more...that's 1 extra job for every 5 proposals submitted!

In our FREE 75-minute webinar, we'll reveal the 5 keys to include in your winning proposals. Take this short time out of your busy workday, mark your calendar, and register below:

FREE WEBINAR: How to Create Proposals That Win the Work
Monday, September 29th, 2:00-3:30pm EST

As a participant, you'll receive:

- A recording of the webinar - you can listen to it as often as you'd like for up to two weeks after the event;
- Individual attention – attendance is limited to 25 participants to be sure that all of your questions are answered; and as a SPECIAL BONUS...
- A sample of a winning proposal containing the 5 keys - you can customize this proposal with your logo and use it as your template.

Whatever level of web designer you are - even if you are just starting out - you can and will instantly take your business to the next level.

"I've been in the design business for 15 years and have quoted hundreds of projects. Yet, I learned strategies in this webinar that are bound to increase my success rate considerably."

-Shawn Chandha, Owner of Shawn Web Design
